

## Cities & Regions Pavilion

6 – 17 November 2017 • Bonn Zone @ UNFCCC COP23, Bonn, Germany

### URBAN SUSTAINABILITY MANAGEMENT SEMINAR

**Date:** Wednesday, 08 November 2017

**Time:** 13:30- 15:00

**Organized by:** The International Federation of Consulting Engineers - FIDIC (Fédération Internationale des Ingénieurs Conseils), and the German Association of Consulting Engineers - VBI (Verband Beratender Ingenieure)

**Session type:** Panel Discussion, presentation with Questions and Answers

**Level of access:** Open

#### Session description:

The consulting engineers' role in the sustainable development of the built environment and the industry's commitment to and call for a holistic and integrated approach that addresses the mitigation of, and adaptation to, climate change, with as an example Berlin's TXL urban energy planning.

The new ISO management standard for sustainable cities and communities contribution to multi-actor, multi-disciplinary sustainability governance and FIDIC's action plan and tools to support implementation at the project and community levels.

Roundtable Discussion: the next steps and need for training, guidance and tools to implement and improve urban sustainability management systems.
