

Cities & Regions Pavilion

6 – 17 November 2017 • Bonn Zone @ UNFCCC COP23, Bonn, Germany

Transforming adaptive cities in Chinese Taipei

Draft as of 01/11/2017

Date: Tuesday, 14 November 2017

Time: 15:00 – 16:30

Organized by: ICLEI Kaohsiung Capacity Center

Session type: Presentation(s) with Question and Answers

Level of access: Open

Session description:

Cities in Chinese Taipei have been particularly aware of the urban and regional environments because of the ever increasing extreme weather events. For any given year, there are an average of four typhoons and over 1000 felt earthquakes, coupled with torrential rain induced flooding, striking this island that has merely a tenth of the size but as much as a third of the population of Germany.

In this event, cities and NGOs in Chinese Taipei will be showcasing how they stay transformative and adaptive by achieving 100% Renewable Energy, ecomobile lifestyle, green buildings and resilience in response to the Paris Agreement.
